

*Victoria's Tender Care Agency*

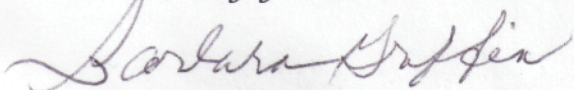

*To Whom It May Concern:*

*A referral was received from the Senior Help Line for the above agency. This was approximately two years ago. I have been more than pleased with the Caretakers that she assigned to my mother. They exhibit an authentic caring that is beyond reproach. There have been occasions when Ms. Evans has taken care of my mother. From her demeanor and caring it is easily seen why her staff exhibit the qualities that they have.*

*In addition, the Caregivers show initiative in coming up with projects and fun activities that please my mother.*

*I would highly recommend Victoria's agency to anyone who needs that type of service.*

*Sincerely yours,*
